**4 Courses**

Natural Language Processing with Classification and Vector Spaces

Natural Language Processing with Probabilistic Models

Natural Language Processing with Sequence Models

Natural Language Processing with Attention Models

Jul 29, 2022

APU CHANDRAW SHILL

has successfully completed the online, non-credit Specialization

Natural Language Processing

Congratulations! You have completed all four courses of Natural Language Processing - a DeepLearning.AI Specialization. As part of this Specialization, you have learned both the classical machine learning skills and the state-of-the-art deep learning techniques needed to build NLP systems. You are now equipped to design applications that perform question-answering and sentiment analysis, create tools to translate languages, and summarize text! These, and other NLP applications, will be at the forefront of the coming transformation to an AI-powered future.

Younes Bensouda Mourri
Instructor of AI at
Stanford University

Łukasz Kaiser
Staff Research Scientist
at Google and Chargé
de Recherche at CNRS
